USC Sea Grant News: June 2015

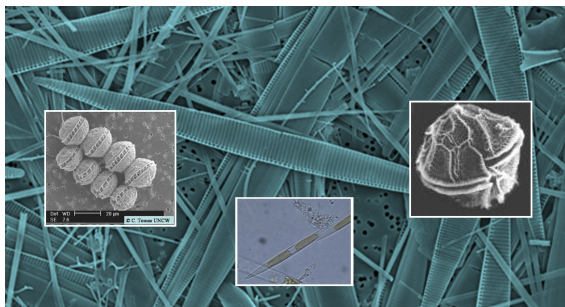

**USC Sea Grant Celebrates 40 Years:**

We are pleased to share a new publication, *40 Years of Progress in the Urban Ocean*. USC Sea Grant's research, outreach and education are tied to the needs of Southern California's urban ocean environment and its residents. This publication tells a few stories to show how our long-term work supports achievements in several areas of importance to the region, including water quality, climate change, coastal management and education. See highlights and stories on our website.

[Learn More...](#)**New Toolkit for Science Centers:**

USC Sea Grant has distributed toolkits on aquatic invasive species that provide curricula and outreach materials for aquaria and nonformal science centers along the West coast. [Learn more...](#)

### HABWatch Program Relaunches:

HABWatch is a community-based harmful algal bloom monitoring network. USC Sea Grant hosted a training and unveiled a new data portal. [Learn more...](#)

### Climate Adaptation Webinar Series:

Save the date! Our next AdaptLA webinar will be held September 17 on legal issues and opportunities for sea level rise planning in California. [Learn more...](#)

### Research Spotlight:

Researchers are monitoring urban beach erosion with a novel tool and establishing a new monitoring network for SoCal beaches. [Learn more...](#)
