Marine Advisory Service

What is Sea Grant?

The California Sea Grant College Program serves the State of California by sponsoring 50 research projects at public and private institutions of higher education, five public education programs involving more than 50,000 school children each year and numerous free marine education publications.

Marine Advisory Services. The Marine Advisory Program includes eight area marine advisors in port cities in California and three marine specialists. Their main function is to provide education to the public about ocean and coastal resources. Further information can be obtained from Maynard W. Cummings, Coordinator; California Sea Grant Marine Advisory Program; 554 Hutchison Hall, University of California, Davis, CA 95616.

Publications. The Marine Advisory Program has more than 30 Marine Education Brief pamphlets on a wide range of topics from a "Bibliography on Marine Education" to "Gyotaku-Japanese Fish Printing." These may be obtained from the MAP Coordinator in Davis, CA (See address above). In addition, Sea Grant has initiated a new Report Series with two informative publications currently available, *California Ocean Research: A Sea Grant Sampler* and *California's Coastal Wetlands*. These are available from: California Sea Grant College Program; A-032, University of California, La Jolla, CA 92093.

Education Programs. Education programs for school children and teachers are available through:

S.I.O. Aquarium/Museum
University of California
La Jolla, CA 92093

Center for Coastal Marine Studies
University of California
Santa Cruz, CA 95064

Humboldt State University Marine Lab
P.O. Box 624
Trinidad, CA 95570

Marine Science Institute
University of California
Santa Barbara, CA 93106

Moss Landing Marine Laboratories
P.O. Box 223
Moss Landing, CA 95039

It keeps eternal whisperings around
 Desolate shores, and with its mighty swell
 Gluts twice ten thousand caverns, 'til the spell
 Of Hecate leaves them their old shadowy sound.
 Often 'tis in such gentle temper found,
 That scarcely will the very smallest shell
 Be moved for days from where it sometime fell,
 When last the winds of heaven wen unbound.
 Oh ye! who have your eyeballs—vexed and tired,
 Feast them upon the wideness of the sea;
 Oh ye! whose ears are dinned with uproar rude,
 Or fed too much with cloying melody—
 Sit ye near some old cavern's mouth, and brood
 Until ye start, as if the sea nymphs quired!

"On the Sea"
 John Keats (1817)
